DATE MAILED: 04/10/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

<b>Office Action Summary</b>	<b>Application No.</b> 10/633,190	<b>Applicant(s)</b> CHANG ET AL.	
	<b>Examiner</b> Mark Blouin	<b>Art Unit</b> 2653	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 22 February 2006.
- 2a) ☒ This action is FINAL.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☒ Claim(s) 1-26 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1-26 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 31 July 2003 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All    b) ☐ Some \* c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

### Detailed Action

#### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Chew (USPN 6,636,383).
3. Regarding Claims 1,8,15,22, and 24, Chew shows (Figs. 3-7), a disk drive, comprising a disk, a head stack assembly for reading and writing to the disk, the head stack assembly (Col 1, lines 38-49) comprising an actuator arm assembly stamped from a single flat sheet of material (Col 2, lines 12-16) and comprising a first actuator arm (6) portion defining a first latch portion (62), a second actuator arm portion (30) defining a second latch portion (14) configured to latch with the first latch portion, an actuator arm-joining portion (98) integrally joining the first actuator arm portion to the second actuator arm portion, and a first head gimbal assembly (28) coupled to the actuator arm assembly, and a second head gimbal assembly (52) coupled to the second actuator arm portion.
4. Regarding Claims 2,10, and 17, Chew shows (Figs. 3-7), the disk drive wherein the actuator arm assembly is configured to pivot about a pivot axis and wherein the

Art Unit: 2627

actuator arm-joining portion (98) is configured to bend into an orientation that is substantially parallel to the pivot axis.

5. Regarding Claims 3,11, and 18, Chew shows (Figs. 3-7), the disk drive, wherein the actuator arm assembly is configured to pivot about a pivot axis and wherein the first latch portion is configured to bend into an orientation that is substantially parallel to the pivot axis.

6. Regarding Claims 4,12, and 19, Chew shows (Figs. 3-7), the head stack assembly, wherein the actuator arm assembly is configured to pivot about a pivot axis and wherein both the actuator arm-joining portion (98) and the first latch portion (Fig. 9 shows latch portion (62) parallel to the pivot axis) are configured to bend into orientations that are substantially parallel to the pivot axis.

7. Regarding Claims 5,13, and 20, Chew shows (Figs. 3-7), the actuator arm assembly, wherein the first actuator arm portion (6) includes a first surface defined by a thickness and a length of the first actuator arm portion and wherein the second actuator arm portion (30) includes a second surface defined by a thickness and a length of the second actuator arm portion and wherein prior to bending, the first surface faces and is parallel to the second surface.

8. Regarding Claims 6,14,21,25, and 26, Chew shows (Figs. 3-7), the actuator arm, wherein the first actuator arm portion (6) defines a first surface that defines a first through bore (10), the second actuator arm portion (30) defines a second surface that defines a second through bore (34) that is configured to align with the first through bore, and the first and second bores are fitted with a collar (Col 8, lines 57-65) to stiffen ( the inter connection would inherently stiffen the structure) the actuator arm assembly.

Art Unit: 2627

9. Regarding Claim 7 and 23, Chew shows (Figs. 3-7), the actuator arm assembly, wherein the actuator arm-joining portion (98) and the first latch portion (62) are configured to bend such that a major surface of the first actuator arm portion faces and is substantially parallel to a major surface of the second actuator arm portion.

***Response to Arguments***

10. Applicant's arguments filed February 22, 2006 have been fully considered but they are not persuasive.

**Applicant argues on page 2:** "Chew does not teach a stamped actuator arm assembly that includes first and second arm portions and a third portion that integrally joins the first and second arm portions."

The Examiner maintains that it is clearly stated in Column 2, lines 12-16 that the first and second arms are stamped from a single sheet of material. Furthermore, these pieces which make up part of the actuator arm assembly are clearly, and integrally joined as a unit by the actuator arm interconnect section (98). Therefore, the rejection of Claims 1-26 are upheld.

***Conclusion***

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2627

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Blouin whose telephone number is (571) 272-7583.

The examiner can normally be reached M-F, 6:00 am – 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful the examiner's supervisor, William Korzuch can be reached at (571) 272-7589. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300 for regular and After Final communications.

Any inquiry of general nature or relating to the status of application or proceeding should be directed to the receptionist whose telephone number is (703) 306-0377.
